Sathyanantham V

Lead Software Engineer | React.js Expert | Scalable Frontend
Architectures | Full Stack (Node.js, Spring Boot)
Coimbatore, Tamil Nadu, India

Summary

Lead Software Engineer with 12+ years of experience building scalable, high-performance applications across Retail, Life Sciences, and Food Service domains, with deep expertise in omni-channel eCommerce and Order Management platforms.

I specialize in React.js and scalable frontend architectures, including Micro Frontend architectures and CMS-driven applications (AEM, Drupal), combined with strong full stack capabilities in backend systems and distributed architectures.

What I Do

Architect and build scalable UI platforms using React.js, Next.js, and Micro Frontend architectures

Develop and integrate CMS-based web applications using AEM and Drupal

Design high-performance APIs and microservices using Node.js and Java Spring Boot

Build event-driven systems using Kafka, with Redis-based caching and PostgreSQL databases

Drive performance optimization, UI scalability, and seamless user experiences

Tech Expertise

Frontend & Architecture:

React.js, Next.js, TypeScript, Micro Frontends, JavaScript, HTML, CSS

CMS Platforms:

AEM (Adobe Experience Manager), Drupal

Backend & APIs:

Node.js, Express.js, Java Spring Boot

Data & Distributed Systems:
Kafka, Redis, PostgreSQL

Architecture:
Microservices, API Design, Distributed Systems

Leadership
Leading and mentoring teams of 6+ engineers
Driving frontend and full stack architecture decisions
Collaborating with globally distributed teams

I am passionate about building scalable frontend ecosystems, robust backend systems, and seamless digital experiences, combining technical leadership with hands-on engineering.

Experience

Nextuple Inc
4 years

Lead Software Engineer
August 2023 - Present (3 years)
India

Lead the architecture and development of scalable, high-performance frontend applications.

Design and implement AI-powered UI automation, real-time collaboration tools, and intelligent design systems.

Drive best practices in React.js, TypeScript, Redux, and modern frontend frameworks.

Enhance UI modularity, extensibility, and maintainability for long-term scalability.

Work closely with UI/UX designers to translate designs into pixel-perfect, responsive UIs.

Implement AI-driven UX improvements, accessibility checks, and performance monitoring.

Optimize UI performance through efficient rendering, lazy loading, and state management.

Integrate with backend services, APIs, and cloud-based infrastructures for seamless functionality.

Lead code reviews, mentorship, and technical strategy for the frontend team.

Stay ahead of industry trends and incorporate AI, machine learning, and automation into UI development.

Senior Software Engineer
August 2022 - July 2023 (1 year)
Coimbatore, Tamil Nadu, India

Cognizant
Senior Associate
November 2018 - August 2022 (3 years 10 months)
Coimbatore, Tamil Nadu, India

An MARN Stack specializing in the areas of Mobile & Web technologies and frameworks. CMS based web site development and MARN Stack web development. As a web developer having considerable experience of taking a website through end to end journey of inception to delivery.

Skava
6 years 10 months

Lead Developer
February 2016 - November 2018 (2 years 10 months)
Coimbatore, Tamil Nadu, India

Senior Software Developer
February 2014 - January 2016 (2 years)
Coimbatore, Tamil Nadu, India

Software Developer
July 2012 - January 2014 (1 year 7 months)
Coimbatore, Tamil Nadu, India

Intern
February 2012 - June 2012 (5 months)
India

Education

Dr.Mahaligam college of engineer and technology

MCA, Computer Science · (2009 - 2012)
